

Electric Vehicle Supply Equipment (EVSE) Connection

Distributor: Eastern Ontario Power

EV Preliminary Consultation Information Request (EVPCIR)

This form is intended for use by customers that have flexibility in where they can install their planned EVSE.

1. Instructions

The Customer should only proceed with this form if the proposed EVSE project is for non-residential applications.

The Customer should complete the latest version of the EVPCIR form, and submit the form per the instruction provided on the distributor's website. All fields are required, unless otherwise noted, to enable the preliminary connection assessment. The Customer does not need to commit to any information provided in the EVPCIR. Changes can be made when submitting a written connection request.

Please note that the preliminary consultation process does not consider the full range of technical evaluations that would be performed by the distributor. Once a complete EVPCIR is submitted to the distributor, the distributor will respond with an EV Preliminary Consultation Report (EVPCR) which provides additional information on the potential complexity of the connection of the proposed EVSE. Capacity is not reserved upon completion of an EVPCR, capacity is reserved upon execution of the Offer to Connect.

All kVA capacity information in this form should be in alternating current (AC) power.

2. Distributor Contact Information

2.01 Contact Information

A. Distributor Name	-	Eastern Ontario Power	<i>Pre-populated by Distributor</i>
B. Department Name	-	Engineering	<i>Pre-populated by Distributor</i>
C. Department Address	-	King St E 32, 86	<i>Pre-populated by Distributor</i>
D. Department City & Postal Code	-	Gananoque, ON K6H 5V3	<i>Pre-populated by Distributor</i>
E. Department Fax	-	N/A	<i>Pre-populated by Distributor (Optional)</i>
F. Department Phone	-	613-382-2118	<i>Pre-populated by Distributor</i>
G. Department Email	-	ceengineering@cornwallelectric.com	<i>Pre-populated by Distributor</i>

3. General Customer Information

3.01 Application Information

A. Project Name	-		-

H. Customer Phone	-		<i>Format: XXX-YYY-ZZZZ</i>
I. Customer Email	-		-

4. Project Information

4.00 Is this EV-PCIR for multiple sites? (if Applicable)	Number		<i>enter number of sites</i>
---	--------	--	------------------------------

EV Preliminary Consultation Information Request (EVPCIR)

This form is intended for use by customers that have flexibility in where they can install their planned EVSE.

4.01 Project Nameplate & Type

A. Existing or New Service		Please select Existing or New Service	Is there an existing load customer?
B. Proposed Maximum Capacity of EVSE only	kVA		AC Capacity of EVSE
C. Total Customer Peak Demand Estimate	kVA		AC Capacity including EVSE
monthly if known	Jan		kVA
	Feb		kVA
	Mar		kVA
	Apr		kVA
	May		kVA
	Jun		kVA
	Jul		kVA
	Aug		kVA
	Sep		kVA
	Oct		kVA
	Nov		kVA
	Dec		kVA
D. Connection Type (Single/Three-Phase)	Select	Please select number of phases	if known
E. Charger Type	Level	Please select what level charger	

5. Site Information

5.01 Existing Account Holder

A. Existing Account Number (if Applicable)	-		Required if applicable
B. Existing Account Holder Name (if Applicable)	-		Required if applicable

5.02 Site Information

A. Site Address	-		Location of proposed facility
B. Site City/Town/Township	-		-
C. Site Postal Code	-		-
D. Site GPS Co-ordinates	-		Required for rural locations

6. Other Information

6.01 Other Information

A. In the comment box below, the customer can provide any additional information related to the EVSE project that wasn't covered in the previous sections. This might include details such as anticipated hourly demand profile (in kWh), specifics make/model of EVSE to be installed, smart charge capability, intended end use (public, private, or institutional). Such supplementary details, beyond the required information outlined above, may assist the distributor in preparing the EVPCR by offering insights into potential connection impacts.

EV Preliminary Consultation Information Request (EVPCIR)

This form is intended for use by customers that have flexibility in where they can install their planned EVSE.

B. If the Customer is providing supplemental documents with the EVPCIR, please list them below.
